

Being a specialized and leading brand of textile machinery under STRENGTH Group, SUNTECH, since 1970, has accumulated extensive experience in the development, production, supply and sales of textile finishing machinery, nonwoven manufacturing machinery, textile material storage and handling, and weaving machinery. Today, we have cooperated with more than 5,000 customers worldwide and our machines are exported to more than 120 countries, with 17,000 machines currently in stable operation in global areas. What we do is not just to be a successful company, we embed value creation in everything we do for customers. We invest all our resources and talents in the constant expansion of more intelligent and automated textile machinery manufacturing lines, and in the continuous development and iteration of new technologies and techniques to bring our products to the next level.
